The SEAAPM invites you to participate in the 2022 SEAAPM In-Person Symposium and Scientific Meeting which will be held in Charlotte, NC. The symposium title is "*Medical Physics and the Quest to Establish Uniform Minimum Standards: The MPPG Initiative*" and the theme for the Scientific Meeting is "*Devising Solutions Where None Exist: Physicists at the Intersection of Creativity and Science*". As the largest geographic chapter in AAPM, the SEAAPM includes the states of North Carolina, South Carolina, Georgia, Mississippi, Alabama, and Tennessee. Our 2 ½ days of meetings (Symposium and Scientific Meeting) attract 50 to 100 medical physicists each year, including the arrival of new attendees for the Scientific Meeting on Friday afternoon. As one of the first in-person meetings targeting medical physicists since 2020, we are excited to welcome both attendees and vendors to gather, with appropriate safety precautions. Please visit the [SEAAPM website](#) for the latest meeting information.

Two Meetings in One

The SEAAPM annual meeting is unique in that it gives sponsors the value of two meetings for the price of one. The 2022 In-Person Symposium will take place over 1.5 days beginning on the morning of Thursday, January 27th and ending around 12-noon EST on Friday, January 28th. The 2022 In-Person Scientific Meeting will begin at 1 pm EST on Friday January 28th and end around 12-noon EST on Saturday, January 29th. Each year, we welcome an influx of new attendees for the Scientific Meeting, and therefore, a new set of potential customer contacts visiting the exhibits on Friday afternoon and Saturday morning.

Thank You to our Sponsors

The executive committee members of SEAAPM recognize that the past 22 months have been challenging for everyone. We are sincerely grateful for your support and participation at our past meetings and *continued support this year as we return to an in-person experience*. The SEAAPM depends on sponsorships to support our annual meetings.
